# POWERPLANT PARK DELIVERY

It's time for real change.

"PowerPlant Park stands with the protestors and the movement for real change in our communities. The time has come to level the playing field. PowerPlant Park plans to actively/loudly use our voice, our pocketbook and our connections within local/state government in the coming days and months to fund organizations in local communities that address the problems that such tragic circumstances have now brought to the fore. Let's all make this time the time that real change is made".
